Cleburne Eye Clinic unveils new website to help patients

Courtesy photo
Dr. Heath Bullard puts the finishing touches on Cleburne Eye Clinic's new website, which debuts this week.

BY JAMI SHELTON

After almost a year in the making, Cleburne Eye Clinic unveiled a new website today, filled with lots of great information for patients or those with questions about their eyes.

"We know patients have lots of questions," said Dr. Heath Bullard, one of the five therapeutic optometrists with Cleburne Eye Clinic. "So, we created a website with lots of informative videos to explain different eye conditions and even to explain how, for instance, Lasik works."

Bullard said information on the website helps answer patients' questions, like "What kind of Lasik is right for me?" or, "Which lens implant is best for me?"

Patients will also find information on the different types of contact lenses available and can even re-order their lenses online.

"We even have a list online of all the frames we carry — names like Oakley, Versace, DKNY, Gucci, Dior, Coach, Cole Haan, Calvin Klein, Juicy Couture, Adidas, Valentino, Kate Spade and Daniel Swarovski."

But that's not all. With summer just around the corner, it's time to begin thinking about protecting your eyes from the summer sun, too. You'll find lots of fashionable and effective ways to do just that with Cleburne Eye Clinic's extensive selection of sunglass frames for the casual sunglass wearer or those who work outdoors and require more safety and protection, like those in the oil and gas or construction industries. And, optical manager Angie Hale says they're the only optometrist in the county to carry ophthalmic Oakleys.

"Patients can browse online or come in and look at our extensive selection of frames in the optical shop. Our friendly opticians are ready to help fit you into a great new pair of glasses."

Bullard said the website will be helpful for patients and new patients, because new patients can go online and make their appointments and fill out their medical history and insurance forms before their appointment so they can save time.

He encourages patients to take a virtual walkthrough of an eye exam, just to see the quality and care patients will receive. There's even an online video library of common eye conditions and diseases.

"We have so much new technology to offer our patients in the office, we wanted to bring our online presence into the 21st century, too."

So whether you need glasses, contacts, a thorough eye exam, or diagnosis or management of an eye disease, trust your vision to Cleburne Eye Clinic. They've been helping people in Cleburne and surrounding areas for 60 years. It's no wonder they keep being voted Best Vision Center in Johnson County.

Cleburne Eye Clinic is on almost every vision plan and most medical plans and can usually get patients an appointment within a week. Call 817-645-2411 for an appointment or visit www.cleburneeyeclinic.com.
